

# AK-Nord

## AK-DinRail/RailPort-Switch

- Easy networking of up to five network devices
- The AK-DinRail-Switch and the AK-RailPort-Switch are the same device. They differ only in their design.

### Current supply

7-32 volts / 2.4 watts

### Temperature range

-10°C .. + 60°C

### Connections

5x RJ45

1x power supply

### Ethernet (MDIX)

AK-DinRail-Switch

AK-RailPort-Switch

## AK-DINRAIL-3G/4G-Router

- high-performance mobile router for industrial Ethernet networks
- safe transfer of sensible data via mobile networks

3G-Router

### Current supply

10-30 volts DC / 4.8 watts

### Dimensions

22.5 x 120 mm

### Temperature range

-25°C .. + 60°C

### Ethernet (MDIX)

4G-Router

### Current supply

10-30 volts DC / 6 watts

### Dimensions

22.5 x 120 mm

### Temperature range

-25°C .. + 70°C

### Ethernet (MDIX)

### LTE

LTE 800, 850, 900, 1800,  
1900, 2100, 2600 MHz
