

Being seen can be a problem

Blend-in seamlessly with our low-profile SENCITY® Occhio Plus antenna

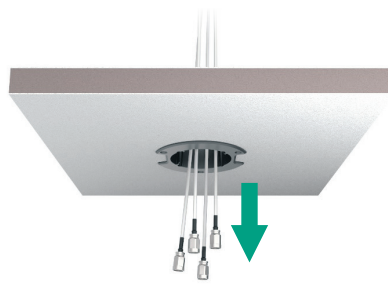

Boost in-building coverage with **SENCITY Occhio Plus**

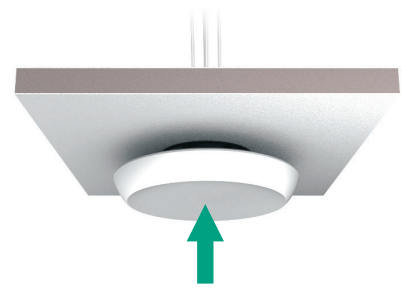

Bring fast and reliable 5G throughput into buildings discreetly, quickly and safely. The SENCITY Occhio Plus ceiling mount omnidirectional antenna is specifically designed for in-building applications and offers high data throughput in the 5G sub 6 GHz frequency range. It is discreet and blends in perfectly with its surroundings. And with its smart connect-system, featuring a self-locking adaptor and quick-lock, installation time is greatly reduced.

Drill 3" hole and insert bracket

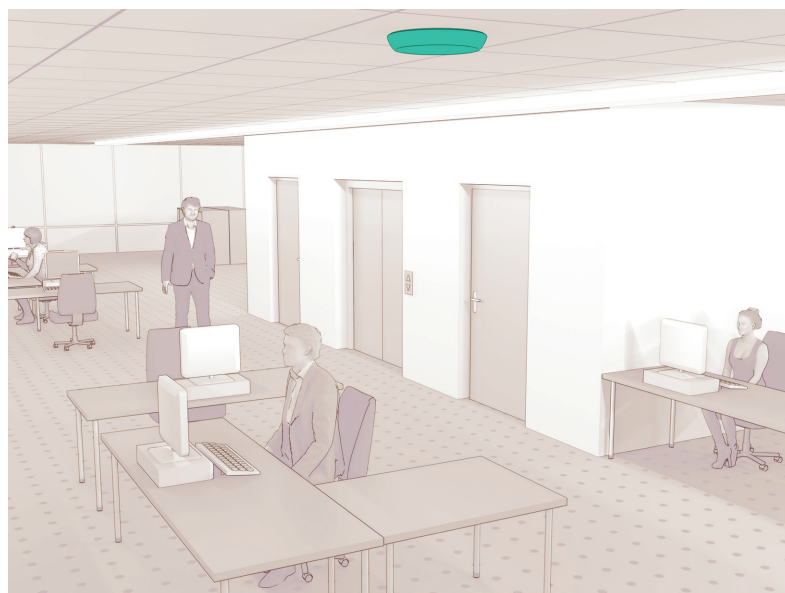

Pass cables through bracket

Snap-in the antenna

SENCITY Occhio Plus

Specifications

- Frequency range:
617 MHz – 6000 MHz
- Isolation: greater than 15 dB
in the low band and 25 dB
in the C Band
- Dimensions: 275×45 mm
(diameter × height)
- Weight: 0.898 kg
- PIM -153 dBc 2×20 W
- Vertical Polarization
- With Nex10® connectors or
4310 plenum rated pigtails
- MIMO 2×2 available

Benefits

- **Low visible impact**
With its discreet and contemporary design, the SENCITY Occhio Plus antenna boasts a low visible impact and blends seamlessly into any space.
- **High data throughput**
The SENCITY Occhio Plus antenna offers a MIMO 4×4 configuration in 5G sub 6 GHz frequency range from 617 MHz to 6 GHz.
- **Easy to install**
A simple and efficient installation process allows installers to mount the antenna safely, securely, and quickly.
