

# TRIPLETT ROUND-UP

## Extreme Weather Cleanup & Restoration Issue

### After the Storm Safely Evaluate Damage During Cleanup

You did it! You prepared as best you could, and you made it through the “actual” storm or natural disaster. Now it’s time to evaluate any damage this extreme weather/ storm may have caused to your home or business. Depending on where you are geographically located and the nature of the event you may have lost power and heat, experienced flooding, built up snow and ice dams on roofs, developed plumbing issues or found yourself grappling with a multitude of other forms of structural damage to the building you live or work in. Triplet offers a variety of tools and test equipment that can help you find problems fast and help you to take the right steps during cleanup keeping you and your family or co-workers safe!

### TECHTALK with Mike

### Tips and Tools to help safely clean-up after an extreme weather event!

When returning to a home that’s been flooded after natural disasters such as hurricanes, tornadoes, and floods, be aware that your house may be contaminated with mold or sewage, which can cause health risks for your family.

Try to return to your home during the daytime so that you do not have to use any lights. Use battery powered flashlights and lanterns, rather than candles, gas lanterns, or torches. [Read more](#)

### Thermal Imaging

#### IRTC400, IRTC600

The next generation in IR Technology to help detect water damage and heat loss. [Read More](#)

### Moisture Meters

#### MS475, MS100, MS120, MS150, MS300

Measure and diagnose dampness in buildings and building materials. [Read More](#)

### Borescopes

#### BR260, BR300, BR350, BR400, BR500, BR750

Inspect inside your walls, plumbing or behind objects that can't be moved. [Read More](#)

### Dataloggers

#### RHDL30, RHDL40, RHDL50

Monitor the drying process after water damage. [Read More](#)

### Gas Meters

#### GSM120, GSM130, GSM050, GSM100

Check for the presence of CO or combustible gases. [Read More](#)

### Worklight/Flashlight

#### TT-102

Versatile, worklight/flashlight with an adjustable stand to aid in power outages. [Read More](#)

### Voltage Detectors

#### ET330, ET350, 9602

Quickly identify if your power outage is internal or external. [Read More](#)
