Cleanroom Pliers

These Pliers go where others can't!

★ ★ ★
Fine Precision

Perform precision work in tight spaces with a variety of head shapes including flat, bent-nose, and conical jaws.

Sterile, corrosion-resistant stainless steel can be autoclaved up to 600° F.

Need extra hold? Slip-free serrated tips are available for most styles.

All models are in stock and ready to ship today!

5 Styles to choose from

Excelta is proud to offer medium-sized stainless steel pliers designed to excel in cleanroom environments. All models feature dual leaf springs, guaranteeing a smooth and consistent action.
